Athens Forum, 17 - 18th April 2008

The Alapis Group was created by the merger of Veterin SA, Lamda Detergent SA, EBIK SA and Elpharma SA. The Group is involved in the manufacturing and distribution of pharmaceuticals and parapharmaceutical products, veterinary pharmaceuticals, cosmetics, detergents and organic products. At the same time, it distributes small animal accessories, medical equipment and health equipment products.

Driving the existing outstanding business in cosmetics, detergents and veterinary products, where the market company is leader in Greece, Alapis' approach and penetration of the market (high margins) with cooperation deals with multinationals, makes this unique investment case attractive not only within the Greek pharma market, but clearly in the pharma sector worldwide.
