Brief description of Services Généraux de Gestion S.A., SGG

Company Profile

SGG as an affiliate of the Sal. Oppenheim Group, with offices in Luxembourg and Geneva, has a specification in financial and wealth engineering as part of Oppenheim's integrated service offer to its clients.

SGG is regulated by the Luxembourg Financial Supervisory Authority (CSSF) as a specialized service provider for the management of Luxembourg private equity structures and fund vehicles.

SGG's service offer comprises the implementation of private equity structures, such as Luxembourg Holding Companies („Soparfis“), Venture Capital Vehicles („SICAR“) and Specialised Investment Funds („SIF“) under the law of 13 February 2007, as well as the accounting, tax filing, VAT, and other operational management issues of these vehicles.

SGG, with a dedicated staff of 140 people has developed multidisciplinary competences and experiences to assist institutional, corporate and private clients with their cross border private equity investments. This approach is tailored to meet our clients' needs and to enhance value for our clients.
