*Milan Forum, 14th March 2008*

Continental is the biggest tire manufacturer in Germany.

Dealing its products in forty or more countries across the world, Continental is no longer content with just tires, but now manufactures braking systems (ABS) along with monitoring and control systems for hydraulics, pneumatics and electronics. The flagship development product remains ESP, its electronic braking system. These various systems are provided by its divisions Contitech and Automotive Systems.

*Market Cap.:* €11,3bn
