Company Profile

Fresenius is a health care Group with products and services for dialysis, the hospital and the medical care of patients at home. In addition, Fresenius focuses on hospital management as well as on engineering and services for hospitals. Sales were € 11.4 billion in 2007.

The Fresenius Group consists of four business segments:

Fresenius Medical Care

Fresenius Kabi

Fresenius Helios

Fresenius Vamed

Fresenius Medical Care is the world's leading provider of services and products for patients with chronic kidney failure. Fresenius Medical Care provides a comprehensive range of products for hemodialysis and peritoneal dialysis. As of December 31, 2007, Fresenius Medical Care was serving 173,863 patients in 2,238 dialysis clinics worldwide.

Fresenius Kabi is Europe's leading company in infusion therapy and clinical nutrition for seriously and chronically ill patients in the hospital and out-patient environments. In infusion therapy, the company offers products for fluid and blood volume replacement as well as intravenously administered drugs. The clinical nutrition portfolio comprises products for patients who cannot or are not allowed to eat any, or sufficient, normal food. Fresenius Kabi is also a leading provider of transfusion technology products in Europe.

Fresenius Helios is one of the largest private hospital operators in Germany. The HELIOS Kliniken Group owns 60 hospitals, including five maximum care hospitals. HELIOS treats about 500,000 inpatients per year at its clinics and has a total of approximately 17,300 beds.

Fresenius VAMED offers engineering and services for hospitals and other health care facilities.

In addition, **Fresenius Biotech** develops innovative therapies with trifunctional antibodies for the treatment of cancer as well as for the treatment of the immune system.
